

Sean Chang

CONTACT INFORMATION	Ph.D. Candidate Department of Statistical Science Duke University, Box 90251 Durham, NC 27708-0251	<i>Citizenship:</i> U.S. Permanent Resident <i>Mobile:</i> (609) 375-8415 <i>Email:</i> sean.chang@duke.edu <i>Website:</i> https://stat.duke.edu/~sc268
EDUCATION	Ph.D. , Statistical Science; Duke University , Durham, NC	2011-present
	Field: Bayesian Statistical Learning. Advisor: Prof. Jim Berger	
	M.A. , Mathematics Duke University , Durham, NC	2011-2013
	B.S. , Mathematics, National Taiwan University , Taipei, Taiwan	2006-2010
EXPERTISE	Machine Learning, Statistics, Experimental Design, Data Mining, Markov Chain Monte Carlo Python (NumPy, SciPy, Pandas, scikit-learn), Matlab, MySQL, Slang, SecDB, Git, Linux C++, R (Rcpp, Armadillo, ggplot2)	
WORK EXPERIENCE	<i>Data Science Intern</i> , Facebook , Menlo Park, CA	5-7/2015
	<i>Summer Associate</i> , Goldman Sachs , London, UK	7-9/2014
	<ul style="list-style-type: none"> Created and implemented new methods modeling cross currency swap basis using currency forward. This work is now utilized for daily risk management in Goldman Sachs. 	
	<i>Analytics Summer Researcher</i> , Verisk Analytics , San Francisco, CA	5-7/2014
	<ul style="list-style-type: none"> Proposed a health care fraud detection algorithm based on reclassifying insurance providers' specialities using random forest. The reclassification algorithm improved the existing one by 10%. Visualized data and results with the data-driven JavaScript library <i>d3.js</i> and <i>impress.js</i> 	
	<i>Instructor</i> , Department of Mathematics, Duke University , Durham, NC	Fall 2012
RESEARCH AND PUBLICATIONS	<ul style="list-style-type: none"> Taught Single Variable Calculus and managed the work of teaching assistants. Received good course evaluations from students with overall score of 4.0/5.0. 	
	Department of Statistical Science, Duke University , Durham, NC	
	<ul style="list-style-type: none"> <i>Bayesian statistics</i>: Established Bayesian and Empirical Bayes procedures on false positive probability in the scenario of high dimensions multivariate normal distribution with arbitrary covariance dependence. 	
	(With J. Berger) "Comparison of Bayesian and frequentist multiplicity correction under a scenario of data dependence". Poster in the 2014 ISBA international meeting. Submitted to <i>the Annals of Statistics</i> .	
	(With J. Berger) "Asymptotic analysis of Bayesian model selection". In preparation.	
	(With J. Berger) "Nonparametric model selection analysis with Dirichlet process priors".	
	<ul style="list-style-type: none"> <i>Clinical trials</i>: Examined efficacy of HIV vaccines and invented conditional frequentist procedures in sequential clinical trials. 	
	(With J. Berger) "Bayesian multiple testing in sequential clinical trials". In revision.	
	Statistical and Applied Mathematical Science Institute (SAMSI) , Raleigh, NC	8/2013
	<ul style="list-style-type: none"> Analyzed trends and incidence rates of sexually transmitted diseases in the US over the past thirteen years with Bayesian hierarchical model and spatial statistics. 	
AWARDS AND HONORS	(With A. Brouwer, et al.) "Burden of Chlamydia in the United States: Trend Analysis of Incidence Rates" Nineteenth Mathematical and Statistical Modeling Final Report, p.77-109. 2013.	
	<i>Duke Reader Project</i> , Duke University	2013 Fall
	<i>Scholarship for Studying Abroad</i> , Ministry of Education, Taiwan	2011-2012
EXTRA- CURRICULAR ACTIVITIES	<i>Dean's Award</i> , National Taiwan University (top 10% of class)	2009-2010
	<i>Educational outreach</i> , Brogden Middle School, Durham, NC	2014-present
	Member of <i>International Society for Bayesian Analysis (ISBA)</i>	2013-present
	<i>Statistical Science Journal Club</i> , Duke University	2013-2014
	<i>Varsity Table Tennis Team</i> , National Taiwan University	2006-2008
